

## TERRA-SOL G.P. PLUS

### DESCRIPTION

Prism Lubricants *Terra-Sol G.P. Plus* Soluble Oil is a premium general purpose soluble oil that produces a stable emulsion in hard or soft water. *Terra-Sol G.P. Plus* is extremely versatile for all phases of metals machining, cutting and grinding. *Terra-Sol G.P. Plus* provides excellent surface finishes on ferrous and non-ferrous metals and exhibits superior rust prevention qualities. The soft fluid residue is easily removed from parts machined and prevents sticking chucks and tooling fixtures. *Terra-Sol G.P. Plus* provides exceptional extended life to coolant sumps by using a unique blend of products that eliminates bacterial growth and foul odor.

### BENEFITS

- Water soluble (hard or soft water)
- Use in all phases of metal machining and grinding
- Excellent tool life
- Outstanding performance on difficult to machine materials
- Excellent surface finishes (ferrous/non-ferrous)

- Outstanding lubricity
- Excellent rust prevention
- Non foaming
- Soft fluid residue
- Easy to clean for post operative processes

### PHYSICAL PROPERTIES

Form	Liquid
Appearance	Blue
Odor	Pleasant/Mild
Flash Point	>300 <sup>0</sup> F
Solubility in water	100%
